HIRUNI PRABODA UDUMULLA

Software Engineering Undergraduate

1566/1B, Sirimalwatta, Kottawa, Sri Lanka I +94 71 487 2297 I hirunipraboda728@gmail.com | LinkedIn | Github

PROFESSIONAL PROFILE

Motivated and detail-oriented third year Software Engineering undergraduate at SLIIT with strong programming fundamentals and problem-solving skills. Eager to gain hands-on experiences and contribute to real-world projects, and further develop skills in Java, SQL, and web technologies while learning industry best practices.

PROJECTS

AI Hallucination Detection and Verification System (MERN Stack)

[2026 January – Present]

Technologies and Tools: MongoDB, Express.js, React Native, Node.js

- Building a system to detect AI-generated hallucinations and verify responses using external APIs.
- Implementing features such as fact verification, credibility scoring, and explanation generation.
- Developing a mobile application with a user-friendly interface for real-time analysis and feedback.

Toxic Comment Analyzer (NLP & AI/ML Project)

[2025 July – 2025 November]

Technologies and Tools: Python, Scikit-learn, NLP, TensorFlow

- Developed a machine learning model to classify toxic and non-toxic comments using NLP techniques.
- Performed data preprocessing, feature extraction (TF-IDF), and model evaluation using multiple algorithms.
- Achieved improved classification accuracy through model tuning and performance comparison.

Laundry Management System (Web Application)

[2025 January – 2025 May]

Technologies and Tools: Java, Spring Boot, MySQL, HTML, CSS

- Designed and developed a web-based system to manage orders, customers, staff, and payments.
- Implemented RESTful APIs and CRUD operations for efficient data handling.
- Built a responsive user interface with real-time order tracking and management features.

GreenHouse Automation System using Arduino

[2024 July – 2024 November]

Technologies and Tools: Arduino, Sensors, Embedded C

- Developed an automated greenhouse system to monitor temperature, humidity, and soil moisture using sensors.
- Implemented automated irrigation and environmental control to optimize plant growth conditions.
- Integrated real-time data monitoring and alerts for efficient resource management.

EDUCATION

2024 - Present	Undergraduate Bsc.(Hons.) in Information Technology Specilizing in Software Engineering
2019 - 2023	GCE A/L - Gothami Balika Vidyalaya,Col.10
2013 - 2019	GCE O/L - Gothami Balika Vidyalaya,Col.10

SKILLS

Technical Skills:

- Programming : Java,Python, JavaScript
- Web: HTML5, CSS3
- Databases: SQL, MongoDB, MySQL
- Version Control: Git,GitHub
- Tools: VS Code, Intellij
- API
- MERN Stack
- Deployment Platforms: Vercel,Render, AWS

Soft Skills:

- Problem-solving
- Teamwork
- Communication
- Time Management
- Adaptability
- Quick Learner

AWARDS

- Dean’s List, Faculty Of Computing | 2025 , Y1.S2

EXTRA-CURRICULAR AND CLUB ACTIVITIES

- 2024 - Present Batch Representative of Weekend Batch
- 2024 - Present Active Volunteer of FCSC and SIS at SLIIT
- 2013 - 2023 Class Representative
- 2015 - 2020 Member of the Interactive Society
- 2017 - 2019 Member of the ICT Community
- 2014 - 2016 Member of the Western Music Choir
